

“It’s like someone turned on a 100-watt light bulb!”

“I had multi-focal lens cataract surgery in one eye in February and the other in April, and my eyesight now is unreal. I do a lot of sewing and cross-stitching, and the day after surgery I was able to thread a needle for the first time in a long time.

“And I don’t have to wear glasses anymore!”

“Dr. Weston’s staff is very organized and so caring. They answered every question I had, and Dr. Weston even called my home the night of my surgery to make sure I was doing all right.

“I’d recommend Dr. Weston to anyone. In fact, I already have.”

— Elaine Cone, Canyonville
