

“I can’t imagine my cataract surgery being any better.”

“I didn’t really know how poor my sight was until I had cataract surgery on my right eye. But now I am seeing things I couldn’t see before, and the things that bothered me before, like bright lights, don’t bother me any more.

“After I get my other eye done, my vision should be better than 20/20.

“I was a little nervous about my surgery, but Dr. Weston’s manner is so reassuring, and his staff so well-qualified and knowledgeable, that they just set my mind completely at ease.

“Veterans like me, and our entire community, are very fortunate to have access to an eye surgeon as skilled as Dr. Weston.”

— Walter Lencki, Roseburg
